Grievance Redressal Policy

1. Grievance Redressal Policy Statement

There are complaints arising due to varied level of service, commitments which may not always be as per the company standards. This often leads to customer dissatisfaction. We understand this and therefore seek infinite possibilities to leverage our customer service processes by driving an effective complaints management program.

Kotak Mahindra General Insurance Ltd (KGI) listens and positively responds to customer complaints. “Complaint” or “Grievance” means written expression (includes communication in the form of electronic mail or other electronic scripts), of dissatisfaction by a complainant with insurer, distribution channels, intermediaries, insurance intermediaries or other regulated entities about an action or lack of action about the standard of service or deficiency of service of such insurer, distribution channels, intermediaries, insurance intermediaries or other regulated entities. An inquiry or request would not fall within the definition of the “complaint” or “grievance”.

We ensure all complaints are dealt with fairly and employees have the necessary skills to manage these expressions of dissatisfaction confidently and competently to their resolution.

The following principles underpin KGI complaints management policy:

- Easy access to information and advice for all stakeholders.
- Application of natural justice and provision of avenues for review.
- Protection of confidentiality and complainants respectfully treated.
- Complaints are addressed fairly, reasonably and in a timely manner.
- Complainants are not to suffer reprisal for making a complaint.
- Complaints data is integrated into business improvement processes.
- The complaint management policy and its application is reviewed regularly to ensure it remains an effective and appropriate mechanism for business improvement.

The objective of the KGI complaints management policy is to encourage the expression of customer dissatisfaction in a positive environment to have a prompt investigation followed by a fair decision making to redress the grievance. Such expression of customer dissatisfaction will have effective and prompt analysis of the root causes of complaints.

The underlying principles for complaints management policy will promote natural justice, avenues for reviewing repeated complaints and customer confidentiality. The complaint management policy and its application shall be reviewed regularly to ensure it remains an effective and appropriate mechanism for business improvement.
